PMI Ministry Update
J. Nelson Jennings, President

Ongoing Ministries; New Initiatives

The most important update is that God continues to work through ongoing gospel ministries all around the world. Take a quick look back at the world map on the [PMI home page](#). By referring to the missionaries' names listed underneath, you can be reminded of who is serving in South America, Europe, Africa, Asia, the Pacific Rim, and St. Louis as PMI Scholars. Click on the missionaries' names and learn of their particular ministries of evangelism, church planting, leadership training, and holistic ministries. I don't need to invent here news beyond what is coming from PMI Missionaries' ministry settings.

By the way, please continue to pray for God's continued provision for PMI ministries, including those of several PMI Missionaries raising support in the US over the next several months.

A particularly significant initiative the PMI Board has taken is the creation of a new position of PMI Director, newly filled by Tom Hudson. Tom will be overseeing PMI Missionaries' ministries, coordinating PMI administrative processes, as well as promoting PMI's ministries to prayer and financial supporters. No doubt you will soon be seeing various signs of Tom's efforts, including on this website.

Tom brings to this significant role three decades of international ministry experience, primarily in Portugal. Tom has also been coordinating new partnership efforts to get Brazilian church planters to Italy. Tom's passion, piety, gifts, and experience make him a most welcome addition to the PMI family. We on the PMI Board are ecstatic to have Tom in particular join our worldwide ministry efforts. We are also grateful to have this new position that has been necessitated by PMI's continued growth in missionaries, finances, and prayer support.

Yours in Christ,

J. Nelson Jennings
President
